

PediPlay Updated Screening Questions for Families

1. *Has anyone in your home tested positive for COVID-19 or have you been in direct contact with anyone that has tested positive for COVID-19 in the past 14 days?*
 - a. **If YES**, they may not come into the clinic until after an automatic 14-day quarantine.
 - b. **If NO**, proceed to question 2

2. *Does your child or anyone in your home have any of the following:*
 - Fever
 - Cough
 - Shortness of breath-tightness in the chest
 - Recent loss of taste and/or smell
 - Sore throat
 - Congestion or runny nose
 - Nausea, vomiting or diarrhea
 - Rash &/or purple discoloration of fingers or toes
 - a. **If NO**-proceed to question 3.
 - b. **If YES** to any of the symptoms above; ask the following:
 - (1) Have the fever and/or symptoms been gone more than 72 hours, without fever reducing medication? OR (2) Has the ill individual received a negative COVID19 test?

 - (2) If the answer to either of the questions above is **YES** -proceed to question 3
 - (3) If the answer to either of the questions above is **NO**-then the patient may not be able to be seen in the clinic that day. Check with front desk or therapist for further instruction.

3. *Have you or anyone in your home traveled to, or come from an area of the country/state where COVID-19 cases are increasing and were there any exposure points where you, your child, or any family member were without a mask or within 6 feet of another individual without a mask? (The mask exposure excludes full-time members of your household.)*
 - a. **If YES**, check with front desk or therapist for further instruction.
 - b. **If NO**, proceed to question 4

4. *Has anyone one in your family traveled on a plane in the last 14 days?*
 - a. **If YES**, they may not come into the clinic until after an automatic 14-day quarantine.
 - b. **If NO**, proceed to question 5

5. *Has your child or any sibling or family member been in a facility or school and been sent home to quarantine for 14 days following an exposure?*
 - a. **If YES**, they may not come into the clinic until after an automatic 14-day quarantine.
 - b. **If NO**, they will be allowed into the clinic for their treatment session.
